

## Farewell to #keepup project

As January 2023 ended, the #keepup partnership also concluded the 27-month-long Erasmus+ KA2 project. The six partners from the five countries started to work together in November 2020 to develop adult education training materials for the small rural businesses. The beginning of the project, especially its first half, was fully affected by COVID-19 which put its mark on the project progress: physical partner meetings were delayed. The second half of the project was more intensive due to the more opportunities to meet in person, and due to the progress of the project activities.

The developed e-learning platform and training materials on digital skills, e-commerce and climate change can be found here: <https://lnkd.in/dDiiqRBG>

A screenshot of the #keepup website homepage. The header features the #keepup logo on the left and navigation links for "KeepUp E-Learning", "Digital Skills", "e-Commerce", and "Climate Adaptation" on the right. The main content area has a dark teal background. On the left, there is a large red heading "Stay ahead of the digital change" and a sub-heading "Enhancing the digital competences, e-commerce skills and climate adaptation of vulnerable small businesses." Below this is a white button with the text "VIEW ALL COURSES". On the right, there is a video player showing a cartoon illustration of two women and two men. The video player has a red play button and a red YouTube logo. Text on the video player includes "Keepup Erasmus+ Project", "#keepup", "Link-masol", "To know about the project and its training, visit: www.keepup-project.eu", and "Megtekinthető itt: YouTube". The Powtoon logo is visible in the bottom right corner of the video player.
